ATHLETICS!

- ✓ **Men's Basketball:** It was *neck in neck* on December 2nd when the Men's Basketball team went against *Intralot* in the *Commercial Super League Championship* game. Despite our team's best efforts their inexperience was revealed when it came to the finer points of the game leading to a losing score of 59 to 65. Nonetheless, coach Papapetrou is proud of his boys because "they gave maximum effort while displaying professional standards." Our team currently ranks 4th in the C.S.L. championship.
- ✓ **Women's Basketball:** They say that hard work and persistence always pay off. Living proof of this is the Women's Basketball team who on December 5th played their best game of the season with passion and determination, and armed with a strong defense beat the tough team of *AO Pikermiou* 52-43.
- ✓ **Women's Volleyball:** There's no doubt that the Women's Volleyball team is much improved this year, but they were faced with a real challenge on December 5th when they went against *GAS Cholargou*. Although the girls played with enthusiasm and determination their opponents proved to be stronger. The game ended with a 2-3 set loss. Remember girls: "If you learn from a loss you have not lost" (Austin O'Malley, football player and winner of the Dublin Senior Football Championship 2006).
- ✓ **Men's Soccer:** Another win for the Men's Soccer team when on December 1st they went against *Pagossios* and won 1-0 in a *Commercial Super League Championship* game. This is their sixth win out of the ten C.S.L. games they've played, giving them a third place rating in the championship thus far.

SOCIOLOGY SOCIETY VISITS KORYDALLOS PRISON

The Sociology Society visited the Korydallos prison on **Friday, 30th of November, 2012**. Sociology Society Advisor Ms. Lagoumitzi and seven Sociology students were received by the prison sociologists, Dr. William Aloskofis and Dr. Konstantinidou, who provided an extensive two-hour briefing about the prison conditions, the population profile and special programs and initiatives that the system offers. Dr. Aloskofis introduced the students into the role of the sociologist in the prison environment. Professor Zouganelis, head of the Prison School, joined the discussion during which he explained to the students the challenges of the Prison School which is part of a wider program of providing inmates with a second chance. Dr. Aloskofis distributed his latest statistical analysis of the prison population to all Dere visitors. The discussion that followed was very lively and is certain to stimulate further the students' interest in the Sociology of Deviance and Criminology in the future. A great thanks to all involved to make this a memorable event!
